To get Computer ID open GoldScrap Calculator application and in the menu select "Menu" -> "Register product", in the product registration dialog box look for "Computer ID".

The information, provided in first three lines (Company Name, First Name and Last Name) will be displayed in the "About" screen of the GoldScrap Calculator Software. This is used to uniquely identify the software as yours, and the Computer ID is necessary to make sure we can process your order at the first attempt — the key system does not allow duplicating Computer ID registrations.

Sometimes customers provide a wrong email address on this form. Please check the email you have provided for accuracy, as we are not able to deliver your keys if the email is not valid. Within 2 days at the most, you will receive a registration email from us with the subject "GoldScrap Calculator — licensing information". It will contain the registration code to unlock the GoldScrap Calculator software for permanent use. Your email address will be automatically subscribed to our newsletters. You will be notified about updates, upgrades and new releases of our software products. You can unsubscribe from our newsletters at any time. Each letter has a link to manage you subscription.
